# Plan Your Laundry

## Things to Keep in Mind

- Locations of existing and future power points, plumbing, light fixtures etc.
- Check if the floor is level.
- The amount of room that doors and windows need to open.
- The size of your washing machine and dryer.
- Access points for installation - where will the cabinets be carried in from?

## What to Measure in your Laundry

- Overall size of laundry.
- Floor to ceiling - we offer cabinets to suit different ceiling heights.
- Wall to wall. Don't forget to allow for tiles if the walls haven't been tiled yet.
- Size and location of doors and windows.
- Waste and/or pipe positions.

# ✓ Easy Installation

Our cabinets are fully built and delivered ready for installation (we recommend installation by a builder or tradie). Download the Laundry Installation & Warranty Booklet at [www.adpaustralia.com.au/installation-warranty](http://www.adpaustralia.com.au/installation-warranty)

Cabinet Connectors make installation simple.

Adjustable metal feet are provided for easily adjusting cabinet levels. Adjustments can be made 30mm up or down.

# ✓ End Panels and Filler Panels

Where to use End Panels and Filler Panels in your Modular Laundry

### Where to use End Panels:

- If the side of a cabinet is exposed (i.e. not next to another cabinet or against a wall).

### Where to use Filler Panels:

- If a cabinet is against a wall or between walls.

### Where to use Wide Filler Panels:

- If your filler panel needs to be wider than 16mm.

Note: End panels for Pure Silk and Decor cabinets are 16mm, end panels for Classic routed cabinets are 18mm.
