

 caesarstone®
**MASTER
OF STONE**

To whom it may concern.

I Kim Smith National EHS Manager for Caesarstone Australia can confirm that Caesarstone attended the ADP site located at 37 Glastonbury Avenue Unanderra, on Thursday March 27th, 2021.

The purpose for our visit was to conduct face to face training for the Master of Stone Online training centre, for the fabrication team whose tasks involve fabricating engineered stone for vanity surfaces.

I can confirm that I personally delivered a comprehensive overview of the online training centre with selected ADP employees which included a heightened focus on managing the risks of silicosis in the engineered stone industry.

Kim Smith

National EHS Manager
