

DELUXE SOLID SIDED DRAWERS

REMOVING DRAWER

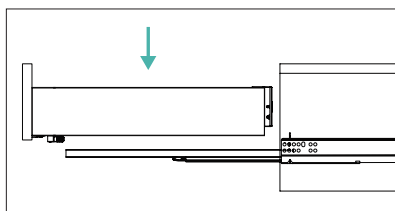

Pull drawer all the way out.

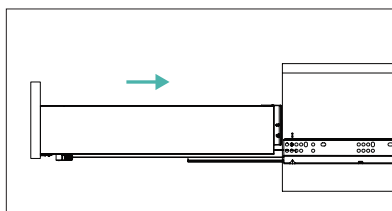

Squeeze both levers in on the underside of the drawer, at the same time (to activate release) and pull drawer up to remove.

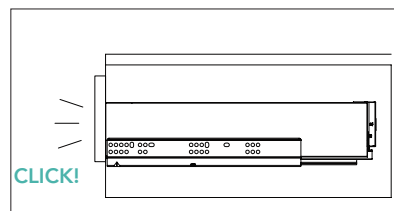

INSERTING DRAWER

Extend drawer runners out and place drawer on runners.

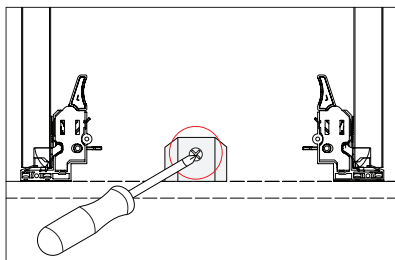

Push drawer closed until it is about 2cm out from the vanity.

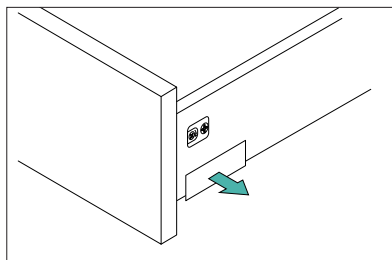

You will then need to apply a little force on the drawer front (near the bottom) to push closed and connect runners in place.

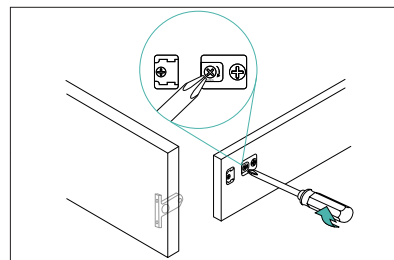

DRAWER FRONT REMOVAL AND INSTALLATION

Depending on width of drawer you may need to unscrew and remove middle bracket on the under side of the drawer.

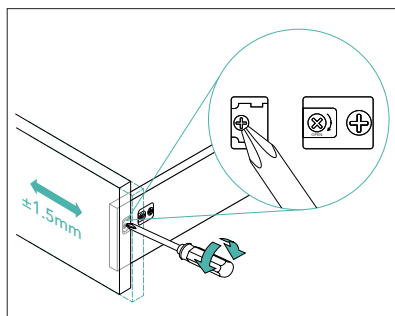

Remove cover cap to access drawer adjustments panel.

Turn release screw clockwise on either side of the drawer to release drawer front.

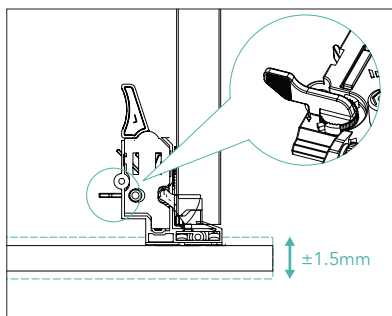

To re-attach drawer front line up the brackets on the drawer front with drawer sides and push into place until you hear a click.

LATERAL ADJUSTMENT

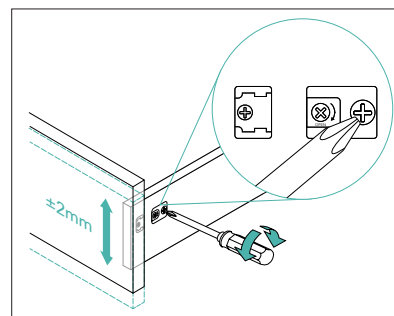

Turn front screw on both sides to move drawer front LEFT or RIGHT $\pm 1.5\text{mm}$.

DEPTH ADJUSTMENT

Turn levers on both sides to adjust drawer front IN or OUT.

HEIGHT ADJUSTMENT

Turn back screw on both sides to move drawer front UP or DOWN $\pm 1.5\text{mm}$.
